1. Why did you choose to obtain a degree in Computer Science and Engineering Technologies?
  - a. Honestly, the short of it is because the high school I went to had us choose a job to shadow. So I picked the one with decent pay. This led me to actually go to college so I kinda just looked and decided to try and I and enjoyed it.
2. What was your favorite project you have done, either in your career or in college?
  - a. My favorite project that have done was a database system for CNC machines to track parts made. My friend and I created the backend. The others created the website and server.
3. What got you into baking?
  - a. Decent and easy skill that helps to have and impress people.
4. What are some recipes people should try to make?
  - a. Whatever they eat out the most. Also, pizza.
5. What is your favorite concert/festival you have attended?
  - a. That's between seeing Lindsey Stirling who does a phenomenal performance in every way. Or Apocalyptica who is a Swedish instrumental band that did a riff of Beethoven's symphony to just do it
6. What was your favorite artist at Inkcarceration?
  - a. Sick Puppies just got everyone going and played an amazing set. It was the drummer's birthday.
7. What concert/festival would you say is on your bucket list and why?
  - a. System of a Down. They haven't released anything in two decades and recently reunited because of the political reasons happening in Armenia.
8. What is your favorite thing to do with Izzy?
  - a. Cuddles and runs. Her favorite is fetch.
9. Why did you start doing leather work?
  - a. Needed a winter hobby
10. What have you made so far?
  - a. Two wallets and currently a pair of boots.

### Summary:

Marco, a Computer Science and Engineering Technologies graduate, initially chose his career path somewhat serendipitously. During high school, a job shadowing assignment guided him toward a field with promising pay, leading him to pursue this degree. His favorite college project involved developing a database system for CNC machines, showcasing his technical prowess.

Beyond the tech world, Marco found a passion for baking, considering it a valuable and impressive skill. He recommends trying recipes for your commonly enjoyed takeout dishes. He emphasized the allure of homemade pizza, being one of his favorites to make.

When it comes to leisure, Marco enthusiastically attends concerts and festivals. The competition for his favorite is fierce, with Lindsey Stirling's mesmerizing performances and the Swedish instrumental band, Apocalyptica, offering unforgettable experiences. A standout memory is witnessing Sick Puppies at Inkcarceration, a performance that electrified the audience and coincided with the drummer's birthday. One item on his bucket list is to attend a System of a Down concert, drawn by the band's recent reunion sparked by political events in Armenia.

Apart from his tech and entertainment interests, Marco also enjoys spending time with his companion, a German Shepherd named Izzy. His favorite activities with her include cuddling and going on runs. Izzy's favorite pastime is playing a game of fetch.

During the winter, Marco has started to delve into leatherwork as a hobby. So far, he has crafted two wallets and is currently working on a pair of boots. He appreciates the tactile and creative outlet this hobby provides.
